FRIDAY..... OCTOBER 14, 1910

THE HIGH SCHOOL QUESTION.

We believe the fulness of time has arrived when the people of Amador county should be provided with the facilities of a county high school. The proposition will meet with little opposition if the campaign in its behalf is conducted with ordinary discretion. As the situation now stands, the movement is far more likely to be injured in the house of its friends, than at the hands of its opponents—if there are any. Let local jealousies be relegated to the background. The proposed high school should be treated in a broad and liberal spirit, as a step toward the educational betterment of the entire county, and not the advancement of any particular section thereof. It is perfectly proper for one town or district to call a meeting of its citizens to discuss the matter or organize to help it along independent of any other section, without being accused of "butting in," or being prompted by improper motives. All discussion of the location of the school should be avoided at this time. It has nothing to do with the question now before the voters, and to drag it in is anything but helpful. Furthermore a writer in the Dispatch intimates—on hearsay only, without giving any facts therefor—that the capitalists are opposed to the high school project. We do not believe there is any basis of truth in such a statement, and the effect is to prejudice a worthy cause. What is to be gained by trying to array class against class. The fact is, the danger of miscarriage lies with the comparatively small taxpayers in outlying districts, who keenly feel the burden of meeting the demands of the tax collector as matters now stand, and are fearful of any move that gives promise of increasing the burden.

The Ledger is for a county high school, and a good one—one that will compare favorably with other institutions of like character on the outside. We indulge in no visionary ideas of a general uplift of education as the outcome of such a school. But Amador is under obligation to keep step with the times, and provide within her borders school facilities for graduates from the common schools. And while the cost of maintaining such a school will be considerable, it cannot be too strongly impressed upon the voters that it does not necessarily follow that the tax rate must be proportionately raised. We have no hesitation in saying that with the exercise of economy, and without any sacrifice of efficiency in any respect, a county high school may be kept up without any serious increase of property taxes. There is no reason why this should not be insisted upon by the voters. A radical change of officers is necessary to make this possible. The system of favoritism must be dropped, and the revenue of the county faithfully collected.

The proposition to bond the state for \$18,000,000 for a system of highways is considered dead—certain to be overwhelmingly defeated at the coming election. It is not being advocated anywhere, but on the contrary, is being condemned in every section. The two bonding propositions for the improvement of San Francisco's harbor will not involve one dollar of property taxes. The principal and interest of the bonds are to be paid out of revenues collected by the harbor commissioners for wharfage and other dues. There need be no hesitancy in voting for these bonds from a fear of piling up an extra tax. The only bonding proposition left is to raise five million dollars in aid of the Panama-Pacific exposition in San Francisco in 1915. This proposes to raise the sum by taxation in four years. Every county expects to be benefited by the influx of people attracted by that fair. It is just the sort of thing to bring Amador's resources to the notice of intending settlers and investors. The tax is a small matter when borne by the property of the entire state, and should be voted cheerfully as a good investment proposition.

We publish in another column the tax rate levied by the respective counties for the current year. The lowest rate is in Kern county, where \$1.30 is deemed sufficient to raise enough money for state and county purposes. Of course, the vast oil industry of that section has contributed materially in making such a low rate possible by swelling the assessment roll to the handsome sum of \$52,350,546. Yuba county has the distinction of having the heaviest tax burden—\$2.60. Amador occupies a medium position, with a tax rate of \$1.85. There are 31 counties with a lower, and 23 with a higher rate. Amador stands out conspicuously as overstepping the 40c limit for road purposes, without resorting to the law authorizing a special levy for main roads.

SCIENTIFIC MISCELLANY

Reported weekly for the Ledger

Life in Interplanetary Space—Bridge-Strengthening by Injections—Danger in Anæsthetics—The Radium Cure—Iron for Platinum—Concrete-Casting in Rotary Molds—Reversible Turbines—The Myth of the Argonaut's "Sail."

The old idea that life may have been spread from world to world by dust particles traversing space is being again discussed. Prof Svante Arrhenius, the Swedish physicist, finds that spontaneous generation is probably no longer possible on the earth, but conceives that it may take place on some globe having more favorable physical and chemical conditions. From that globe life may be scattered to other, habitable bodies on particles driven by the pressure of light. In recent experiments with bacteria, half of the dried organisms perished within three days at ordinary temperatures, but others showed no impairment of vitality after four months at the temperature of liquid air, and it was concluded that the cold of space might so diminish vital activity that life may be sustained for millions of years. An objection to this theory, by M. Paul Bocquerel, is that the ultra-violet rays from incandescent stars are constantly sterilizing space. Even extreme dryness and cold cannot greatly lengthen resistance to these rays, and spores exposed in a vacuum to ultra-violet rays under conditions of extreme cold were destroyed within a few hours.

An injection of cement was the novel method lately adopted to make strong and serviceable two crumbling stone railway bridges at Hamburg, Germany. The arches—51 feet in span—were cracked in all directions, and small holes were bored partly through the masonry at the sides of the cracks, and thin cement mortar was forced in at a pressure of five atmospheres. When this had hardened, the stone-work was found to be thoroughly consolidated.

The rapid increase in mortality from anaesthetics is giving much concern in England, where there were 5 such deaths in 1866, over 100 in 1900, not less than 155 in 1905, and 235 in 1909. The experience in the United States is probably quite as startling. More than half of the deaths seem to be due to chloroform and the death-rate is doubtless much increased by the free use of anaesthetics by unqualified persons.

The government radium baths at Joachimsthal have been pronounced highly successful by the Department of Commerce at Vienna. Of 209 patients treated with radioactive baths and drinking water at the experimental establishment, 169 derived benefit and only 40 were unaffected, marked improvement being shown in cases of rheumatism, uric acid poisoning, nervousness, neuralgia and certain skin diseases, while there was no effect on wasting disease and diseases of brain and spinal column. The results compared very favorably with those from electricity, mud baths, massage, etc. The action of radioactivity varies with the strength, and up to a certain point stimulates the cells, while at higher degree it paralyzes and disintegrates. Much further experiment is necessary to determine just how to get the best results.

A substitute for platinum in electric light bulbs is much to be desired. This metal is very rare and costly, and even the minute pieces used in the 50 million electric lamps manufactured early have a total value of more than \$500,000. The proposition to use iron wire in its place has now been made, by Dr. H. J. S. Sand of Nottingham University College. Hitherto only platinum wire has been satisfactorily sealed into the basis of the bulbs on a commercial scale, but Dr. Sand claims a method of sealing iron wire vacuum-tight into glass, and has made a successful demonstration of his process. The cost of iron for the lamp bulbs, if used in the place of platinum, would be very small.

Concrete tubes, posts, etc. are produced by centrifugal action at a factory in Saxony. A steel skeleton may be used to give strength to the pipe, and this is inserted in a mold, with a suitable cement mixture, and this mold—which is in two sections—is given 500 to 1000 revolutions per minute for 10 to 15 minutes in a series of special machines. Asbestos fiber is introduced to prevent the separation of sand, etc., from the concrete. The pipes formed are given uniform thickness by keeping the molds in a horizontal position, and the shape may be varied by inclining the molds. The centrifugal force molds, presses and the plastic mass.

A revolution in physics is recognized by high authority, it is affirmed, by the award to Prof. Ernest Rutherford

PRETTIEST HATS IN JACKSON

Do you want a hat that will be the envy of your friends? You will find it at Miss Prosser's millinery store.

Hats for every occasion, for every style, or costume, for every figure, and face, for every fancy, and for every purse.

of the Barnard medal, which Columbia College bestows upon a leader in science once in five years. It is claimed that Prof. Rutherford's discoveries have demonstrated that all physical matter is the same in its ultimate constituents, that the differences between the so-called elements are differences of arrangement of the constituents, and that a continual evolution or change is in progress, one element passing into another. The Rontgen rays opened the way to the discovery of radio-activity and of a series of radio-active substances that pass into one another. Of the three kinds of radiation of these substances, the alpha rays have been found by Rutherford to be positively electrified particles of helium, moving with speeds up to one-tenth the velocity of light; the beta rays are negatively electrified corpuscles, with velocities at times about equal to that of light, and the gamma rays are unelectrified and not unlike Rontgen rays. The radiation of the particles much smaller than atoms, it is pointed out, is much like an escape of vitality while one element is changing to another.

The reversible turbine of G. De Laval and E. Fagerstrom consists of a vaned wheel with two concentric sets of oppositely curved vanes. Helical passages between concentric conical shells form sets of nozzles discharging the steam against either the "forward" or "astern" vanes, and receive steam from annular chambers, from one to the other of which it is turned at will by a hollow conical steam valve, with sideports. The shafts, gearing, etc., are those of the ordinary De Lava turbine motors.

The cephalopod mollusks known as argonauts really act as submersible power-boats. Instead of spreading their membranous arms as sails, as they have been long fabled to do, the creature propels itself by ejecting water from its siphon. At the Naples Zoological Station, Signor Baglioni has found that it does not always remain on the surface, as naturalists have supposed, but, by exhausting the air from its shell, it can sink and travel under water.

Died at Martinez

After a lingering illness, due principally to old age, Mrs. E. J. Woolcock, who had long been a resident of Back Diamond, and also at the mines in the early days, passed away Monday at Martinez, aged 60 years, being the sole surviving member of the family. The deceased was a native of England, but had spent the greater part of her life in this county, and was well known and highly respected by all in this vicinity. Funeral services were conducted Wednesday at the Lackey residence, Black Diamond, under the auspices of the Pythian sisters' lodge of that place, and were largely attended. Many beautiful floral pieces were presented by dear friends. Rev. W. H. Cooke of Oakley, delivered a touching funeral sermon. The interment took place at the Masons' and Odd Fellows' cemetery at this place, being in charge of undertaker George Higgins—Antioch Ledger.

Jackson Meets Defeat

The final ball game of the season on the local grounds was played on Sunday last, between a picked nine from the county players and the Wingards of Sacramento.

The Sacramento players arrived here about noon in two large autos. About 2 p.m., a portion of Jackson's band assembled in front of the National hotel, and played several selections, after which they drove to the ball grounds in large busses.

The attendance at the grounds was large, but the game was described as being positively rotten, the score in the final inning standing eleven to nothing, in favor of the visitors.

PLYMOUTH.

Oct. 5—Mr and Mrs Sallee, Mrs Wetmore and George and Hazel Easton, have returned from Santa Cruz, where they have been visiting relatives.

Mr and Mrs Sherman Coster, who have been visiting relatives here for some time, were passengers on the outgoing Carbondale stage Saturday morning en route for Sacramento, where they reside.

Mrs J. F. Brumfield, who has been quite ill for the past few weeks, left for Stockton, to seek medical advice and also to visit her daughter, Miss Bessie, who is attending school there.

Miss Lilly Norman of San Francisco, came up to keep house for her brother, Dr. W. A. Norman.

Mr and Mrs Frank Mann, who have been living at Copper Hill, have moved to Plymouth, and have rented the Scoble residence on the corner of Mineral and Phoenix streets.

Henry Kreth of Copper Hill was the guest of Mrs Haret Ybright on Sunday last.

Ray Walton of Sacramento and Mrs Frank Rector of San Francisco, are here on a visit to their mother, Mrs J. E. Walton, who is quite ill.

Mrs A. O. Dugan, who has been visiting her sister, Mrs Creswell of Mills, near Sacramento, met with a surprise on her return home, Mr Dugan having built a new fence in front of their place of residence, which adds greatly to its appearance.

Mr and Mrs Fred Littlefield and son Raymond, who have been traveling in the northern part of the state for the past two months, have returned.

James Levaggi of San Francisco, is here on a visit to relatives.

Mrs Chas. Shields, who has been visiting her daughter in Sacramento, has returned, accompanied by her grandson, Freddie Boucher.

Mrs Tom Norman of Sacramento, came up to attend the funeral of Mrs Sarah Shairer, who was buried on Tuesday last. Buster Brown.

VOLCANO

HANDY MEDICINE CASE.

How to Make One at Home Out of Linen or Canvas.

Oct. 12.—M. Ralph was a business visitor here Saturday.

A. Gillick returned from Oatman, Arizona, after an absence of five years.

T. Delucchi was a visitor at Oleta Saturday and Sunday.

T. Levaggi was in town Sunday.

M. Green returned to Stockton Saturday, after a short visit with many friends.

J. Daneri of Sutter Creek spent Saturday and Sunday in this vicinity.

Mrs Sarah Ross, accompanied by her granddaughter, Miss Grace Bunn, departed for San Andreas Monday, where she will visit at the home of her daughter, Mrs C. Bunn.

Mrs Cody Grillo departed for San Francisco Sunday, where she has secured a position as teacher in one of the public schools of that city.

Mr and Mrs W. Murphy of Defender visited relatives here Monday.

Messrs J. Rye and J. Tam have returned, after visiting a few days at Cook's station.

Mountain Rosebud.

It's the World's Best

No one has ever made a salve, ointment or balm to compare with Buckle's Arnica salve. It's the one perfect healer of cuts, corns, burns, bruises, sores, scalds, boils, ulcers, eczema, or salt rheum. For sore eyes, cold sores, chapped hands, or sprains, it's supreme. Infallible for piles. Only 25¢ at Spagnoli's drug store.

AMADOR

Oct. 12—Mrs Cassella and daughter Angelina returned home Tuesday night, after a trip to the hopfields and vineyards.

Mrs Fred Leoni, two sisters and Miss Emily Rogas, returned home Sunday. The young people have been in Lodi picking grapes for the past month or more.

Amador City was favored by a shower of rain early this week.

Richard Kemp is here visiting his sister, Mrs John Phipps jr.

Rob Christenson and Richard Bennetts went hunting, but came home badly disappointed on account of the scarcity of game and pantry of the bag.

One case of scarlet fever here is getting along nicely toward recovery.

Primrose.

Kills a Murderer

A merciless murderer is appendicitis with many victims. But Dr. King's New Life Pills kill it by prevention. They gently stimulate stomach, liver and bowels, preventing that clogging that invites appendicitis, causing constipation, headache, biliousness, chills, 25¢ at Spagnoli's drug store.

SUTTER CREEK

Oct. 13—R. M. Ford and Miss Margaret Lawlor, two popular young people of Sutter Creek, will be united in marriage in the Catholic church at this place early Saturday morning.

Hedley Perking and wife are here from Stockton visiting friends.

Mrs Mary Prosser of Oakland arrived here this evening, and will spend the winter with her sister, Mrs E. Jones.

Mrs Mary Shearor returned to Sutter Creek Monday evening, after an extended absence in Nevada with her son.

Edward Fagan of Butte, Cal., brother-in-law of Mrs Fagan of Sutter Creek, is here visiting relatives and old time friends.

H. G. Murray, a one time resident of Sutter Creek, arrived here a few days ago from Lassen county to visit his son and family.

Mr and Mrs John Brignoli have returned to their home in Sutter Creek, after an absence of several months in San Francisco.

Johnny Roberts is building a new fence around his residence on Mineral street. It looks rather suspicious Johnny, rumor says the wedding bells will be ringing soon in that quarter.

Mrs Alex Matulich and little daughter of Drytown, were visitors here on Saturday last.

Mrs Tom Norman has returned to Sacramento, after a short visit with Mrs John Doman.

Mr and Mrs Jabsz Ninnis of Spring Valley have rented the Harrel residence, and intend moving here soon.

Buster Brown.

CHILDREN CRY FOR FLETCHER'S CASTORIA

HANDY MEDICINE CASE.

How to Make One at Home Out of Linen or Canvas.

For the friend who cannot travel without her pet remedies a homemade medicine case would make an acceptable gift. It is easily made to hold one's special bottles and has the advantage of adding little weight to the satchel or suit case.

Cut an oblong piece of heavy cardboard and stitch it between two pieces of heavy tan colored or dark red linen or canvas. The covering is cut longer than the cardboard on the ends to allow for seams and stitching. The sides of the linen are enough longer than the board on both sides to permit it to be folded over in envelope fashion when the case is closed.

When the cardboard is in place the cover is stitched close to its edge all around. These edges may have four or five rows of stitching or can be bound with white linen braid or a braid of a contrasting color. The same braid is sewed to each end of the case to strap the flaps into place when folded over.

The inside of the case is finished with two bands of the material, one above the other, and divided into pockets to hold the various bottles of medicine. The compartments are divided by machine stitching or close brier stitching. They should be deep enough to hold a bottle up to its shoulder.

Two oblong envelopes and a long, narrow one of the linen are added to hold absorbent cotton, gauze bandages, court plaster and a few simple utensils, such as medicine dropper, hypodermic syringe case and a clinical thermometer. Between the case two linen straps are arranged to hold a pair of scissors.

On the outer flap of the case should be embroidered initials or monogram in tones to match the braid. Several thicknesses of cotton batting should be cut to just fit inside the case over the bottle. They can be buttonholed loosely in colored cotton to hold together. This covering or one of elderdown is slipped over the bottles when traveling to keep them from spilling.

While it is not necessary to fill this case, it is as well to put in bottles at least. Buy them first, so the compartments can be made to fit. Those without patent stoppers are best.

REMOVAL OF STAINS.

How Thirteen Kinds Can Be Easily Taken Out.

Fruit—Pour boiling water through or use alcohol.

Chocolate or Cocoa.—Wash in cold water, then pour boiling water through.

Tea.—Wash in cold water, then in boiling water.

Coffee.—Pour boiling water through.

Iron Rust.—Cover with lemon juice and salt, then put in the sun, or make a paste of cream of tartar and water and cover the spot, putting in the sun, or wet the spot with lemon juice and hold over a hot iron (good for white wash goods).

Grass Stains.—Wet in cold water, cover with cream of tartar and put in the sun, or use alcohol if goods cannot be washed.

Mildew.—If fresh wet in strong suds, cover with paste of salt and soap and put in the sun.

Blood.—Soak in cold water or water and salt. When nearly gone use soap and water or use starch paste.

Wine (red).—Cover with wet salt and wash in hot water.

Machine Oil or Axle Grease.—Cover with lard and wash with soap and cold water. Finish with hot water and soap.

Red Ink.—Ammonia and water, milk or cream or cold water and soap.

How to Make "Bread Boxes."

"Bread boxes" are an artistic, cheap and delicious way to serve many entries as eggs, chestnuts or greens. They are easy to make, but comparatively few women understand it. Cut stale bread at least two days old in four inch cubes, having first removed the crusts. Dip each cube into slightly beaten egg and fry in boiling lard in a frying basket. Remove when golden brown and drain on brown paper. Cut out a square from one side of the cube a quarter of an inch smaller than the box and dig out the crumb, leaving the sides and bottom about a half inch thick. Before using set the "bread boxes" in a hot oven to heat through, fill with whatever mixture is desired and add the lid or not, as preferred.

How to Freshen Velvet.

To clean a velvet suit sponge the spots with pure alcohol; then suspend the suit on a hanger in the bathroom in such a way that the air can reach all sides of the garment. Turn on the hot water in the tub until the steam fills the room. Shut the door and windows. Shut off the water and let the steam do its work for an hour, but do not touch the garment until it is perfectly dry. You will be surprised at the newness of your suit.

How to Clean Ermine.

First heat and brush out all the dust to clean ermine. Lay the furs upon a clean cloth and with a new, perfectly clean sponge wet the ermine down to the skin with grain alcohol. While it is wet sift into it all the borax talcum the fur will hold. Do it quickly, lest the alcohol should evaporate. Shut up in a box for a week, then brush, shake and "dress."

How to Wash Comfortables.

Wet the comfortables, then rub well with naphtha soap, hang on a line and turn the hose on them until the water runs clear. Let them hang until dry, then shake them out, and your comfortables will be light and fluffy, like new ones.

How to Wash Comfortables.

BLOOD TELLS

Good blood tells, they say, and bad blood certainly does. Poor or disordered blood tells its own story in lowered vitality, loss of energy, in skin eruptions, in rheumatic pains and in a pallid or sallow appearance of the complexion. This is the season of the year when the blood is most apt to be disordered. Take

Ruhser's Compound Extract of Sarsaparilla

It purifies and enriches the blood. It cures boils, pimples and other skin troubles. It expels rheumatic poison from the system. It builds up strength and energy.

JACKSON

CITY ITEMS

Mrs Alice H. Jones left yesterday morning for San Diego, as delegate from the Jackson Chapter of Eastern Star to the grand chapter, which convenes in the southern city on Monday next. Mrs Wachter of Lancha Plana is also a delegate, and the two will meet in Stockton and proceed on the journey together from that point. They will be away about ten days.

R. Webb, editor of the Ledger, returned Sunday from San Francisco, after attending the meeting of the California Press Association, which was called to consider the Panama-Pacific exposition bonds. The sentiment of the assembled journalists was unanimous in favor of the bonds, believing that the state at large will be greatly benefited by the vast crowds that will be attracted to California by that exposition.

The old Mace property situated south of the Methodist church on Church street, is receiving much needed repairs. The structure was allowed to stand in its dilapidated condition for several years and was an eyesore for all who passed that way. A new porch is being erected in front and in the rear of the building, and these improvements, together with a respectable looking color of paint, the place might be considerably improved.

Jas. J. Wright has had his residence, which is located at 114 Court street reshelved. Peter Senney has charge of the work.

George Lucot left for San Francisco last Monday as a delegate from the local Masonic order to the grand lodge which convened in that city on Tuesday last. He expects to spend about one week in the western metropolis.

Mrs Rose Ratto, who came up from San Francisco to attend the funeral of her father, G. B. Arata, returned to the city last Sunday.

Theodore Bell, the democratic candidate for governor, will reach Amador county on October 23, and will speak in Jackson and other places on Monday, October 24. He will not speak in the evening at any point in this or Calaveras county, but will be in Sonora on the night of the 24th.

McGarry has a large line of fine dress goods to select from.

Charles R. Glenn, Will E. Hoss, Lee F. Payton, Fayette Mace, all of Defender, California.

JOHN F. ARMSTRONG, Reigster.

Important Notice

All persons knowing themselves indebted to V. Giovannoni & Co., will please call in without further notice and settle their accounts. To liquidate the affairs of this firm, it becomes necessary to collect all our ordinary bills, and for that reason prompt payment must be made.

Jackson, October 14, 1910.
J. P. GRAY.
S. F. Board of Trade Adjuster.
V. GIOVANNONI & CO.
N. B.—Store open for collection only.

Extra Papers

Many will receive the Ledger this week outside our regular subscribers. Those getting the paper will not be called upon to pay for them, as the copies have been paid for. These extra papers will be sent until the election.

Catholic Bazaar.

A three days' bazaar in aid of St. Patrick's Catholic church of Jackson, was commenced in Love's hall on Wednesday evening, and will close this evening. There has been a large attendance the past two evenings, and a lively business has been done in gathering funds by the sale of all kinds of articles, and tickets for this worthy cause.

For Justice of the Peace

The political card of Jas Jay Wright, as candidate for justice of the peace in township one, appears in another column. He was mentioned in this connection on the republican side some time before the primaries, but declined to announce himself, or be considered a candidate, because of the feeble health of the democratic incumbent and candidate for renomination. Now that a vacancy has been created by death, he is free to become a candidate. He is qualified in every way for the position. He has sound judgment, is well posted in the fundamental principles of law, and moreover, is a man that may be depended upon to act according to the dictates of his conscience. He will make an active canvass for the position.

James Meehan also announces himself a candidate for this position. His card appears in the proper column. He is a pioneer citizen and well known to every voter, and would no doubt fill the office in a satisfactory manner.

Card of Thanks.

In the hour of sorrow and bereavement we wish to extend our heartfelt thanks to those who tendered their aid in the last illness and funeral rites of a beloved husband and brother, Alfred Goldner.

Mrs A. Goldner
Mrs Gottheimer
Mrs Levy
Miss R. Goldner
Rachel Goldner
Edith Goldner
Robert Goldner
Isidor Goldner

NOTICE FOR PUBLICATION.—02241

Department of the Interior,
U. S. Land Office at Sacramento,
California, October 3, 1910.

Notice is hereby given that Malinda Jane Fisher, of Defender, California, who, on October 13, 1906, made H. E., No 8074, for NE 1/4 NW 1/4 Section 32 and SE 1/4 SW 1/4, Section 29, Township 7 N., Range 13 E., Mount Diablo Meridian, has filed notice of intention to make Final five year Proof, to establish claim to the land above described, before U. S. Commissioner for Amador County, at his office in Jackson, California, on the 12th day of November, 1910.

Claimant names as witnesses,
Charles R. Glenn, Will E. Hoss, Lee F. Payton, Fayette Mace, all of Defender, California.

JOHN F. ARMSTRONG, Reigster.

WOMEN'S IMPROVEMENT CLUB

Jackson Ladies Organize to Boost for High School

On Saturday afternoon, October 8th, the ladies of Jackson assembled in the court room, for the purpose of organizing an improvement club.

C. P. Vicini called the meeting to order. He stated that the object of the meeting was to better conditions in our town and county, in any line where improvement was needed. He suggested that the ladies might do much good acting in unison with the chamber of commerce and other organizations of like character.

Nominations for temporary officers being next in order, Mrs Sargent was elected temporary chairman, and Miss Annie McLaughlin temporary secretary. For permanent chairman, Mrs Endicott was chosen; Mrs Sargent secretary and Mrs Emma Taylor, treasurer.

Mrs Endicott addressed the meeting, and stated its object to be general improvement along needed lines, said lines to be discussed and acted upon at subsequent meetings.

The main object to be worked for and attained, was the interesting and awakening of the people of our county to the great and pressing need of a high school, that our children may be enabled to finish in a becoming manner an education fairly begun.

The chair then appointed committees as follows:

Mrs Caminetti, chairman of committee on by-laws, she to select her helpers.

Mrs Wright, Mrs Duden, and Mrs Wiley spoke on the necessity of securing permanent quarters. Mrs Wright pointed out the desirability of having quarters in a public place, that all ladies wishing to join might feel absolutely unhampered, as might not be the case were the meetings to take place in private homes.

Mrs Wylie, Mrs Lucot and Mrs Snyder were appointed to interview the trustees and gain their consent to using one of the public school rooms.

Mrs Vicini and others expressed the belief that it would be granted as the state superintendent recommended the use of the schoolroom for such goodly purposes.

The amount of dues to be paid was then discussed, and it was decided they be 50c per quarter until further notice.

The ladies then discussed a time for meetings. Saturday, at 3 p. m. was chosen to enable the teachers, who are deeply interested, to attend.

Mrs Caminetti moved that the secretary notify other similar organizations in the county of our existence, and of our earnest desire to work with them for the common good.

The chair then called for expressions as to a fitting name for the organization. Several different names were suggested, but it was finally decided to call the organization "The Women's Improvement Club of Jackson."

The chair then appointed Mrs Lucot, Mrs Vicini, and Mrs Greenhalgh a press committee with power to publish such parts of the proceedings as they saw fit.

Talks of a general nature were indulged in by all present; the main thought and desire being that we work in harmony with the ladies of our sister city, Sutter Creek, to gain the heart's desire—a county high school.

Many of those present came forward to pay their dues, and a very successful meeting came to a close at 4 p. m., the whole company giving the high school yell adopted by the Sutter club.

It is in time of sudden mishap or accident that Chamberlain's liniment can be relied upon to take the place of the family doctor, who cannot always be found at the moment. Then it is that Chamberlain's liniment is never found wanting. In cases of sprains, cuts, wounds and bruises, Chamberlain's liniment takes the soreness and drives away the pain. Sold by all dealers.

Why Children Fail To be Promoted.

The Bureau of Municipal Research in New York is trying to investigate the failure of promotion in the public schools of that city. It is said that no less than 200,000 pupils fail every year to pass the examinations. The work has been placed in charge of Dorothy Whitney, and she has communicated with 500 cities to know what they do for the benefit of the pupil who is in danger of failure to be promoted. Miss Whitney says that no one has tried to find out for how many of the failures the inefficiency of the teacher is responsible. Supt. Young of Chicago thinks that if there were a better understanding between the principals and the pupils, the percentage of failure would not be from 17 to 20 per cent.

Buggies, wagons, farming implements, at lowest rates, at McCall & Reigster, 320 Market st., Stockton.

OBITUARIES.

Alfred Goldner

Alfred Goldner died at his residence at the corner of Church and Court streets on Monday evening last about 11 o'clock, of Bright's disease, after an illness of several months. For many years he conducted a small drug store business in Jackson, but failing health compelled him to retire from that business a few months ago. For the past seven years he has filled the office of justice of the peace in this township, being first appointed to fill that position upon the death of his father, who held the office for about thirty years. He was the nominee on the democratic ticket for the same office at the coming election without opposition, and also secured the nomination on the republican ticket, the republicans failing to put up anyone for the office.

For the past few months the dread malady made rapid strides to a fatal termination, and for a week before the end he was confined to his bed, and it became apparent to all that the closing scene was near.

The funeral took place Wednesday afternoon, the remains being interred in the Hebrew cemetery of this city. The ceremonies were conducted under the auspices of the Foresters of America, of which order the deceased was a member. He was also a member of the local parlor of Native Sons.

Deceased was a native of California, aged 48 years. He leaves to mourn his departure a wife, also two brothers, Isidor Goldner, who is employed in the hardware business in San Francisco, and Robert Goldner of this city. He also leaves five sisters, Mrs Levy of San Francisco, Mrs Guttenheimer of Dixon, Yolo county, and Misses Rachel, Ena and Edith Goldner of this city.

sinking fund at that time, and therupon and before the tenth day of December following, give notice by public notice to be published in one or more newspapers published in the county of San Francisco, and also in one newspaper published in the city of San Diego, and also in one newspaper published in the city of Los Angeles, stating the number of bonds so drawn, and the principal of said bonds will be paid on presentation to the treasurer on or before the tenth day of December following, and that from and after such last named date all interest upon bonds thus drawn shall cease, and it shall be the duty of the treasurer as soon as said bonds so drawn by lot are surrendered him and paid to cancel the same, and the interest coupons thereon, and each year beginning with the year nineteen hundred and fifty, the said treasurer shall, in the manner aforesaid, cause to be loted such an amount of bonds as shall be requisite to exhaust as nearly as may be the amount in said sinking fund, and proceed in the manner hereinabove stated. After the payment of all said bonds the surplus or balance remaining in said sinking fund, if any there be, shall be paid into the San Diego Harbor Improvement Fund. At the time of the respective drawings by lot, as aforesaid, and also at the maturity of said state bonds, said treasurer shall sell the United States or other bonds than in said sinking fund, at governing market rates, after advertising the sale thereof in the manner hereinbefore provided, and the sum so obtained, authorized to be issued, and shall use the proceeds for the payment of such bonds as may be drawn by lot, and at the maturity of said bonds outstanding shall pay and redeem said matured outstanding bonds out of said moneys in said fund in extinguishment of said bonds on controller's warrants duly drawn for that purpose.

Sec. 6. The state controller and the state treasurer shall keep full and particular account and record of all their proceedings under this act, and they shall transmit to the governor an abstract of all such proceedings therunder with an annual report, to be by the governor laid before the legislature biennially; and all books and papers pertaining to the same, and all the acts of this act shall at all times be open to the inspection of any party interested, or the governor, or the attorney-general, or a committee of either branch of the legislature, or a joint committee of both, or any citizen of the state.

Sec. 7. It shall be the duty of the state treasurer to pay the interest of said bonds, when the same falls due, out of the sinking fund provided for in this act, on controller's warrants duly drawn.

Sec. 8. This act, if adopted by the people, shall take effect on the thirty-first day of December, nineteen hundred and ten, as to all its provisions, except those relating to and necessary for its submission to the people, and for returning, canvassing, and proclaiming the votes, and as to said excepted provisions this act shall take effect immediately.

Sec. 9. This act shall be submitted to the people of the State of California for their ratification at the next general election, to be held in the month of November, nineteen hundred and ten, and all ballots at said election shall have printed thereon, and at the end thereof, the words, "For the San Diego seawall act," and in a separate line under the same, words to the effect, "San Diego seawall act," and opposite said lines there shall be left spaces in which the voters may make or stamp a cross to indicate whether they vote for or against said act, and those voting for said act shall do so by placing a cross opposite the words "For the San Diego seawall act," and all those voting against said act shall do so by placing a cross opposite the words "Against the San Diego seawall act." The governor of this state shall include the submission of this act to the people, as aforesaid, in his proclamation calling for said general election.

Sec. 10. The votes cast for or against this act shall be counted, returned and canvassed and declared in the same manner and subject to the same rules as votes cast for or against other acts; and if it appear that said act shall have received a majority of all the votes cast for and against it at said election, as aforesaid, then the same shall have effect as hereinafter provided, and shall be irrevocable until the principal and interest of the liabilities herein created shall be paid and discharged, and the governor shall make proclamation to that effect, and the majority of the voters cast as aforesaid, are again in this act then the same shall be and become void.

Sec. 11. It shall be the duty of the secretary of state to have this act published in at least one newspaper in each county, or city and county, if one be published therein, throughout this state, for three months next preceding the general election to be held in the month of November, nineteen hundred and ten, the cost of publication shall be paid out of the San Diego harbor improvement fund, on controller's warrants duly drawn for that purpose.

Sec. 12. The state controller and state treasurer are hereby directed to transfer from any moneys paid into the San Diego seawall fund the sum of the provisions of this act to the sinking fund of the State of California, any and all sums of money thereto transferred from said general fund to the San Diego seawall fund, together with interest on said moneys from the date of transfer at the rate of four per cent per annum.

Sec. 13. This act may be cited as the San Diego seawall act of 1910.

W. R. BROWN,
President of the Senate.

P. A. STANTON,
Speaker of the Assembly.

Approved April 16th, A. D. 1910.
J. N. GILLET, Governor.

Endorsed: Filed in the office of the Secretary of State the 7th day of April, A. D. 1910, at 12:30 o'clock p.m. C. C. CURRY, Secretary of State.
By J. HOESCH, Deputy.

BY 20-15

Notice to Voters.

A new and complete registration of voters is required by law during the year 1910.

Registration closes for the purpose of voting at the Primary Election on July 26, 1910, and for the purpose of voting at the General Election on September 23, 1910.

You may register with the County Clerk, or any of his deputies.

Dated June 8, 1910.

J. R. HUBERTY,
County Clerk. Amador Co., Cal.

The following are the Registration Deputies

Jacob Surface	John

TO FLOOD EAST WITH POST CARDS

Every Californian Will Work For Panama-Pacific Exposition

Following the appointment of OCTOBER 10-17 as POST CARD WEEK, the Special Post Card Committee of the Panama-Pacific International Exposition announces the plan of campaign.

Letters have been dispatched to every commercial body in California asking that a central committee be appointed by each to take local charge of POST CARD WEEK; and tonight many representatives of the exposition company leave San Francisco to make a round of the State to assist in organizing such central committees and otherwise to stimulate interest. It has been suggested that the women's clubs, the schools, the Native Sons and other fraternal organizations work under the direction of and in conjunction with each local central committee.

An exceedingly artistic design has been accepted for the official post cards. They will bear the Panama-Pacific Exposition seal, and read

Get your Congressman
To vote for the
PANAMA-PACIFIC INTERNATIONAL
EXPOSITION
at the
EXPOSITION CITY,
SAN FRANCISCO, 1915.

California will give an Exposition That
Will Be a Credit to the Nation.

In each city, town and hamlet of California, a supply of these cards, which will be printed by the million, will be on sale. They will be there several days before the beginning of POST CARD WEEK, the places of sale to be announced through each local central committee. Every Californian who can write is expected to dispatch out of the State at least five of these official cards. All business and social letters sent out during POST CARD WEEK should contain reference to San Francisco and the exposition.

The time for sending out these appeals has purposely been restricted within the confines of one week, in the expectation that such an overwhelming flood of cards will simultaneously descend upon the country that congressmen will be started into a realization that California has an immense organization of compelling power, the influence of which is not to be despised.

Beside the special cards issued by the Exposition, the post card companies are printing upon their own responsibility cards bearing California scenes and slogans. They intend flooding all their California agencies with these cards in ample time for sale during POST CARD WEEK.

BOOSTERS GET BUSY

Write to Congressional Friends to Work for San Francisco.

GET YOUR CONGRESSMAN
TO VOTE.
FOR SAN FRANCISCO-1915

At the head of this editorial we run the trade mark of the Panama-Pacific Exposition Company, which is handling the arrangements to have San Francisco selected as the site for the proposed Panama-Pacific Exposition to be held in 1915 to commemorate the completion of the Panama canal in that year. Among other things the trade mark says: "Get your congressman to vote for San Francisco, 1915."

We have no reason for appealing to our congressmen, for William F. Englebright is one of the enthusiastic boosters for San Francisco. But it is probable that many of our readers who have come from the East, South and Middle West to settle have congressmen whom they know and to whom they could write with great effectiveness. If there are any such it is their duty to obey the admonition contained in the trade mark of the exposition company of San Francisco...

It would make us ridiculous in the eyes of the world if we reject the proposition to bond the State for \$5,000,000. For years we have boasted being the most progressive commonwealth in the Union. We have advertised this fact, and now some of our narrow-sighted but well-meaning contemporaries would throw back the moving hands of progress and put us in the column of dead and forgotten States. It must not be. California must maintain her prestige and vote for bonds for the proposed exposition. — Nevada City Miner-Transcript.

Gloom in New Orleans.

It is said that New Orleans is gloomy over the census figures, as these may tend to injure her chances for the Panama exposition. She need not worry so much over the census returns as over San Francisco's post-card campaign, which is to be launched in a few days.—San Jose Times.

CLEANING CHINA AND GLASS.

How to Care For Fine Dishes and Delicate Glassware.

Ordinary everyday china may be washed first in hot soapsuds, then in a clear rinsing water, and dried with soft, clean dish towels. A housekeeper should watch her maid carefully to see if her methods of dishwashing are approved. She should provide her maid with a hand mop, a half dozen good dishcloths, a soapsuds maker—that is, a small receptacle to hold the odds and ends of soap, which, when shaken in the hot water, will create a whole handful of suds—and two dishpans, one for washing and one for rinsing. The maid must learn, and she usually does by bitter experience, that to put delicate glassware into scalding hot water means death and destruction to the glassware. The same thing will happen if hot tea is poured into a cold and brittle teacup. This causes sudden expansion, and the piece cracks either under the glaze or quite through it. It is a simple matter either to warm the cups by pouring in little warm water or by putting them in a warm oven for a moment or, better still, by pouring the tea over a silver spoon resting on the cup.

The heaviest cut glass cracks under a change of temperature. An ice cream dish of this costly ware was once split in half while the mold of ice cream was being helped. Inquiry at the factory disclosed the fact that the sudden fall of temperature, combined with the pressure in cutting the ice cream, had caused the accident. Had the dish been set in the refrigerator a little while before the ice cream had been served it would never have split in half. In washing cut glass, therefore, place it in warm water first before putting it in the hot soapsuds.

When cleansing delicate and costly china strong soaps and soap powders should be avoided. They will surely eat into the gilding and decorations. Either ammonia or borax is safer. In arranging handsome china on the shelves soft mats should be placed between the plates to avoid scratches and nicks. The cups should be hung by their handles from hooks. This is much safer than piling them up on the shelves. Platters should rest lengthwise in a groove on the back of the County High School.

3rd. That each committee be urgently requested to meet in its town, or precinct, at once to formulate its own plan, appoint such sub-committees as it deems advisable and provide for the attendance at the polls on election day, of one or more active workers in behalf of the county high school.

4th. That Mrs Bayliss C. Clark be appointed chairman of all the committee, and a member of each committee and that she be authorized and requested to notify each committee of its appointment, advise with and extend to each committee all aid possible.

MASS MEETING IN SUTTER CREEK

High School Discussed

A mass meeting was held in Levaggi hall, Sutter Creek, last evening, on the high school question. There was a large attendance, and all seemed enthusiastically in favor of the project.

W. H. Greenhalgh was made chairman, and made the opening address. The principal speaker was Prof. McClymonds, of the school department of Oakland, W. J. McGee, Rev. Easterbrook, W. L. Rose, C. P. Vicini, J. M. Benson, also addressed the meeting.

All the county candidates were made vice presidents.

The committee on organization, consisting of C. H. McKenney, Mrs C. N. Johnson, Mrs M. D. Nixon, Mrs M. Marks, Mrs W. E. Tucker, Mrs. W. J. McGee and C. N. Thoms, reported as follows:

Your committee appointed to formulate a plan of campaign for the County High School election, to be held November 7th, do hereby report as follows:

1st. We recommend that the committee, whose names are appended to this report, be appointed to assist in carrying the High School election in their respective towns or precincts.

2nd. That each committee have the entire management of the campaign in its precinct, or town, and conduct the same as in its judgment will best serve the public good and the success of the County High School.

3rd. That each committee be urgently requested to meet in its town, or precinct, at once to formulate its own plan, appoint such sub-committees as it deems advisable and provide for the attendance at the polls on election day, of one or more active workers in behalf of the county high school.

4th. That Mrs Bayliss C. Clark be appointed chairman of all the committee, and a member of each committee and that she be authorized and requested to notify each committee of its appointment, advise with and extend to each committee all aid possible.
